Step Taken to Prevent Further Spread of Influenza—Enforcement in Hands of Local Boards of Health

The Department of Health Board of Health has taken a number of steps to prevent the spread of influenza, as reported by Dr. J. R. Weaver, state commissioner of health, in his annual report on the prevention and control of disease. The Board of Health has been active in the prevention of outbreaks of diseases, particularly influenza, and has taken steps to prevent further spread of the disease.

The Board of Health has been active in the prevention of outbreaks of diseases, particularly influenza, and has taken steps to prevent further spread of the disease.

Dr. Weaver said that the order would be carried out by the local boards of health throughout Pennsylvania, and that the health officers with the assistance of the Board of Health will be ready to enforce the order.

The order applies to all licensed liquor stores, and may have a far-reaching effect on the city's place in the business world. The benefits of closing the stores will be decided upon later.

There were 123 new cases of influenza reported today, and the Board of Health has taken steps to prevent further spread of the disease.

Influenza has been reported in two other Pennsylvania cities, and the Board of Health has been notified.

The order is expected to go into effect in the next few days. The Board of Health has been notified of the situation, and will take steps to prevent further spread of the disease.

The order also applies to all licensed liquor stores, and may have a far-reaching effect on the city's place in the business world. The benefits of closing the stores will be decided upon later.

The order is expected to go into effect in the next few days. The Board of Health has been notified of the situation, and will take steps to prevent further spread of the disease.
