Additional Quarantine Regulations

Notify me of any violations of quarantine regulations anywhere in the county.

The local health officer, your home, and your neighbors are required to keep your home well ventilated and allow the sunshine to enter.

The regulations for the present time are as follows: No meetings, no services in churches or Synagogue, no lodges, no gatherings of any kind. This must be followed strictly until the situation improves.

The regulations are in effect for the protection of the public and the comunità. It is necessary that we all comply with them.

DR. J. W. ROCKFELLER
Physician in Charge.

REPORT AS TO QUARANTINE
APPEAL FOR COOPERATION
PHYSICIAN IN CHARGE

At the request of the county commissioners of the county, each of the incorporated towns in the county, through their physicians, the public health officer, and the health officers of each of the towns, as well as numerous citizens, the undersigned took charge of the epidemic under the direction of the county physician in charge on November 6th 1918, and since that time has given the matter his undivided attention day and night, and the results secured are due to the cooperation of the people of the county.

While in some cases great inconvenience and hardship have resulted to those desiring to enter the county and return to their homes, I believe that the results have justified the sacrifice. It is impossible to save the lives of all, but those who have been saved have benefited from their experience.

As a rule the people of the county and those coming here have heartily cooperated with the physician in charge in obeying all rules and regulations imposed, but as is always the case, there are some people who have complained and objected to the enforcement of the quarantine regulations and sought to evade them in some instances, greatly to their president's regret. This cannot be enforced without the co-operation and assistance of the people of the county.

We are watching the condition of the county on the border and surrounding towns very carefully, and the quarantines in those places must be maintained as long as it is safe to do so. We are maintaining this quarantine for the benefit of all. It is a matter of pride and practice under the present conditions.

Just a few days ago, one D.A. Bentley, of Alamosa, tried to evade the quarantine and get into Pitkin County without permission of the physician in charge and was without permission quarantined. He was arrested by the sheriff of the county, brought to Guma and fined the amount of $500 and his fine and costs to be paid.

This party claimed that he did not appreciate the seriousness of the situation and finally admitted that he had received the proper treatment and paid the fine with the understanding that he would observe the quarantine rules and regulations which have been made for your protection. On the other hand, if they are not obeyed, they are going to be enforced by law until the quarantine is lifted.
