WALTER B. JAMES, M.D.
SEVEN EAST SEVENTIETH STREET
NEW YORK

February 5th, 1919.

Dr. S. H. Baldwin,
Saranac Lake, N. Y.

Dear Baldwin- 2

I am starting off today to be away a few weeks at Jekyll Island - my address will be Jekyll Island Club, Brunswick, Georgia.

I am glad to hear that plans are well under way for the session of the school. As soon as you get your dates, etc., all fixed let me know for I shall try to plan to come up for the opening. Now that I am out of my feeble-minded Commission, I shall have lots of time. Thanks for your kind invitation. As soon as the roads are passable in the spring I shall certainly try to motor up.

I note what you say about the Kluge cottage. Be very careful how you enter into any contracts, especially to do any building, and I should not accept a gift of a cottage from Kluge except with the distinct written understanding that he was to pay for the cottage, not as we did with Dr. Aziel, for building conditions are so uncertain that anything you start with may cost you twice as much before it is finished.

I am glad you have made satisfactory arrangements with Krause. He is quite indispensable to the course. I am interested in what you say about the different men coming back. It looks as if Saranac Lake might be very populated medically before long. I note what you say about the Lake Placid central heating plant. I will talk all that over with you and Armstrong when I

don't fuss up.

I really think that Francis should come home and take care of his mother. It is a very good excuse for getting out of the Army, although one must use a good deal of care, for some days have "got in wrong" by leaving the Army when their presence there was still wanted. If he were to come back and there was not such doing in the village it would give him a good chance to do some intensive work in the institution.

I am glad to hear about your boy. I suppose he will be back in New Haven before long. Please give my best regards to Mrs. Baldwin.

Sincerely yours,

Walter B. James, Jr.
