Influenza Spreading 60 to 70 Cases Here

There are about 65 to 70 cases of influenza spreading and conquering Germans. We must fight and conquer germs without taking anything away from the army and navy. Don’t ask the army or navy for medical and surgical supplies. Use simple utensils for sterilizing, the simplest kinds of bed and bedding. Make your own masks and dressings. And fight for yourselves.

1. While the epidemic is on, do no surgical operations unless absolutely necessary to save life.

4. In every way in your power urge the members of the volunteer medical service corps to cooperate to the fullest extent with the United States Public Health Service and with the state and local health authorities.

EDWARD P. DAVIS
President Volunteer Medical Service Corps.

FRED SCHERMERHORN
Representative Volunteer Medical Service Corps.

GRADING STREETS

Some grading has recently been done on Main Street, from Park Avenue to the city limits on West Main. All loose rocks on this street have been picked up and removed.

SHIPPERS WHO PACK GOODS POORLY WILL BE PROSECUTED

The Food Administration is “going after” the shipper whose goods arrive at their destination damaged because of improper handling or defective equipment.

Tons of fruit, vegetables, and meats have been damaged because of improper handling or defective equipment.
