What Shall We Do? Doctors Talk Over the Epidemic Here

Meeting in City Hall Results in No Action, But Considerable Loosening of Opinions; Doctors Nearly All Favor Tight Quarantine

A meeting called at the city hall Thursday night to determine what is to be done in the interest of public health in regard to the epidemic of influenza, resulted in no action by the city council, but the matter was referred to the health department for investigation, and the health officer was instructed to report in two days.

The meeting was held in the City Hall, and was attended by representatives of the health department, the city council, and the public health association.

The mayor presided, and the meeting was called to order by Dr. E. A. Knott, the city health officer.

The mayor took advantage of the occasion to introduce a resolution requesting the city council to appoint a committee to investigate the condition of the city and to report their findings to the council at the next regular meeting.

The meeting adjourned without action.
