FEWER CASES OF INFLUENZA ARE REPORTED

Kingsley House Receives Patients—Hundreds in Regular Hospitals.

WARNING TO SALOONS

The number of new cases of influenza in Pittsburgh for the 24-hour period ending at 4 o'clock yesterday afternoon was 629. This is a decrease of about 20 per cent as compared with the previous day, but the Department of Health will not undertake to say yesterday that it shows an improvement of conditions, or that the "peak" of the epidemic has been reached. The total number of cases reported to the Pittsburgh Health Department since the epidemic began is 10,066.

There were 65 deaths from pneumonia and influenza reported from 6 a.m. Monday to 4 p.m. yesterday, 32 being from pneumonia, 27 from influenza and pneumonia, and five from influenza alone.

Between 4 p.m. and midnight there were 54 deaths reported, 36 being from pneumonia, eight from influenza and pneumonia, and 16 from influenza alone.

In some other cities:

Health Director W. H. Frry yesterday announced some interesting information showing the conditions in other cities. In New York, with a total of population, there had been no cases of influenza and 4,404 cases of pneumonia. The New York report stated that it was believed the peak had been reached in the epidemic of 1899, while last week eight weeks the peak was reached at the end of the fourth week.

Reported that the number of new cases increased, Chicago reporting 2,000 cases with the disease increasing on the North Side and spreading to the South Side. St. Louis reported 400 cases a day. Cleveland reported 2,000 cases, and the number of new cases increased. Chicago reported 2,000 cases with the disease increasing on the North Side and spreading to the South Side. St. Louis reported 400 cases a day. Cleveland reported 2,000 cases, and the number of new cases increased.

Students Inducted Tomorrow.

Orders were received yesterday representing the National Guard, the number of cases increasing. Chicago reported 2,000 cases with the disease increasing on the North Side and spreading to the South Side. St. Louis reported 400 cases a day. Cleveland reported 2,000 cases, and the number of new cases increased.

OFFICERS VERY ILL

While the health condition in the camps of the Students' Army Training Corps at the Carnegie Institute of Technology, and at the University of Pittsburgh was very satisfactory, Monday evening at the field house, two cases of influenza were reported in the Pittsburgh camp. Two days later, two other cases were reported in the Pittsburg camp. Two days later, two other cases were reported in the Pittsburg camp. Two days later, two other cases were reported in the Pittsburg camp. Two days later, two other cases were reported in the Pittsburg camp.
