Surgeon General Blue Urges Pittsburgh
To Back Dr. B. F. Royer In Closing Order

Continued From First Page

The health authorities, in reaching the conclusion, have had the assistance of Dr. W. F. McVean, and Dr. T. E. Scott, and the latter is a member of the board of health. The conclusion is based on the belief that the closing order is necessary to prevent the spread of the disease, and the order is issued with the understanding that it will be enforced strictly.

The order affects all places of business where people congregate, including public halls, theaters, churches, and other places where large numbers of people assemble. It is understood that the order will be enforced rigorously, and that all violators will be prosecuted.

A statement from Dr. Royer explains that the order is necessary to prevent the spread of the disease, and that the health authorities are acting in the best interest of the public.

The order will go into effect immediately, and will remain in force until further notice.

The order is supported by a statement from Dr. W. F. McVean, the chief health officer of the city, who says that the order is necessary to prevent the spread of the disease, and that the health authorities are acting in the best interest of the public.

The order will go into effect immediately, and will remain in force until further notice.
