

LIBERTY PROGRAMME CANCELLED BY HEALTH BOARD

Parade Scheduled for Today Called Off by Local Authorities

TOWN ADVISED TO CELEBRATE BY BUYING BONDS

THERE WILL BE NO LIBERTY PARADE TODAY, by order of the Board of Health. There is no edict against buying bonds, and that will be a good way to observe "Liberty Day" in Princeton.

Tomorrow, Saturday, October 12, the Boy Scouts will begin their campaign. The Liberty Loan Committee, acting on request of the Scout organization, will give two cups, to the troops that score best and next best. The cup to the troop that wins second honors will take the place of the one formerly given to the best individual bond salesman among the Scouts.

The Boy Scout headquarters for this campaign will be at Mr. Köpp's store.

Bonds and Bullets, Princeton's Liberty Loan newspaper, put out by the Committee in conjunction with the Packet, appeared as per schedule on Wednesday of this week, adorned with a special message to Princeton, from Governor Edge. Its report, up to the close of business October 7, brought the total of subscriptions up to \$219,350, and the list of subscribers to 876. The Honor Roll in this issue of the Packet begins where *Bonds and Bullets* left off, and gives names of those who bought bonds on October 8, 9, and 10.

The present standing of the loan is shown in the box table printed on this page.

Too late for publication in *Bonds and Bullets* of October 9, this letter from the New Jersey Advisory Committee was received by the editor, and turned over to us for publication today:

"To the People of Princeton: The War is not yet over. We should not be over optimistic. There should be no let down of our energies. Over confidence on our part may prolong the struggle. Now is the time for us to make our sacrifice. The fact that we are winning the war on the western front should be no excuse for not subscribing to the Fourth Loan at once, especially in view of the fact that

the budget announced by the Treasury Department MUST be raised. During this drive we are handicapped by the fear of Influenza therefore it is the duty of every citizen to make his subscription now. Do not wait to be urged and solicited. BUY NOW. Buy all you possibly can and then borrow from the bank to buy more as it is patriotic to borrow. Loan a part of your future earnings or income to your Government. You will be paid back with interest and at the same time will be helping to win the war. It is a small thing to ask and we know our money is safe.

"We must remember that the western front is from New York to Jerusalem. Shots have been fired off our own coast. Every dollar counts and every dollar will help to win the war. Princeton, an historic battle-ground, through its generous and patriotic citizens should readily raise its quota and then its Honor Flag with a Star thus showing the country an example to be well followed.

H. KINNEY,

"New Jersey Advisory Committee."

Governor Edge, Chairman Stokes and State Advisory Committeeman Kinney have all, in their letters to this community, made it plain that the rest of the State knows our record, and expects us to keep up with it. Perhaps they don't fully appreciate the special difficulties under which we labor—but that's OUR affair, and we'll take care of it.

There is just one week left for Princeton to make its quota, and the Committee urges and expects EVERY Princetonian to do his or her duty.

Buy Bonds; Buy Bonds; Buy Bonds!
