

TOWN MAY HAVE A PERMANENT HOSPITAL

Mayor Browne Appoints a Committee
to Arrange for its Establishment

COUNCIL EXTENDS VOTE OF THANKS

Tentative plans are now made for a permanent hospital in Princeton. It was brought up for the first time at the monthly meeting of Borough Council, held on Tuesday evening in Borough Hall.

Councilman Henry G. Duffield offered a resolution to Mayor Browne to appoint a committee to see if arrangements could be made to establish such an institution here. The mayor, with his usual promptness in backing needed improvements for the town, quickly appointed Miss Sarah G. Duffield and Prof. Ulric Dahlgren, President of the Board of Health, to act in conjunction with himself on such a committee. Others will be added should the need arise.

A vote of thanks was extended to the Board of Health for their timely and efficient help in establishing the emergency hospital here during the influenza epidemic, and also a vote of thanks to the ladies of the town, the Village Improvement Society, and all others who so willingly helped in any way to make a success of the hospital which proved such a benefit to the town in a critical crisis, and undoubtedly prevented a serious loss of life.
