TO ORGANIZE VOLUNTEERS.

District meetings are being held today by the Mothers of Democracy in their respective districts to organize volunteers. The volunteer nurses will visit the homes of women who are willing to give a few hours of their time each day to help in the fight against influenza. The nurses will be supervised by a group of women who will make rounds of the district, reporting the progress of each case to the health department.

The call for volunteers is urgent, and those interested are encouraged to contact the health department immediately.

COAL MINERS TO NIGHT EPIDEMIC AT MINES

The influenza situation in the mining region around Pittsburgh has become critical. The Pittsburgh Coal Producers Association has called a meeting in the Farmers Bank building at 9 a.m. to discuss the situation.

There were present representatives of the following companies: Westward Coal Company, Duquesne Coal Company, and United Mine Workers of America, Pittsburgh and Eastern Coal Company. The meeting was called to discuss measures to contain the epidemic.

The Westward Coal Company has reported that they have had 11 deaths last night. The total number of deaths in the mining region has reached 50 cases, and production has dropped significantly.

The Pittsburgh Coal Producers Association has decided to suspend mining operations in some areas to prevent the spread of the disease. The health department has also been called in to assist with the situation.

SPEAKING IN BOROUGH.

Influenza is spreading rapidly in Tarentum, Braddock, and National City. Health boards have been established in these boroughs, and the health board in Natrona has been expanded. The health board in Natrona has also established a hospital in Natrona, and the city has purchased medical supplies and drugs.

The health department has also established a hotline for the public to call in case of an emergency. The hotline is manned 24 hours a day, and the health department has set up a system to ensure that cases are reported promptly.

The situation is critical, and the health department has been working tirelessly to contain the epidemic. The public is urged to cooperate with the health department and to take precautions to prevent the spread of the disease.

DOCTORS IN CONFERENCE

The influenza epidemic in the region has led to a rise in hospitalizations. Doctors have called a conference to discuss the situation.

The conference was called to discuss the increase in hospitalizations and to develop a plan to contain the epidemic. The doctors have been working closely with the health department to ensure that cases are reported promptly.

The situation is critical, and the health department has been working tirelessly to contain the epidemic. The public is urged to cooperate with the health department and to take precautions to prevent the spread of the disease.
