

Only 13 New Cases Of "Flu" Reported

A continued decline in the number of new influenza cases reported to the health department is noted in the report for the 18-hour period ending at 10 o'clock this morning. But 13 new cases of the disease were reported, making a total of 23,119. Two new pneumonia cases were reported during the same period, the total number of cases reported now being 2,367.

Twelve persons died from the influenza and its complications. Five deaths occurred from pneumonia and seven from influenza-pneumonia.
