

Influenza-Reported Increasing Again

Sixty-four cases of influenza were reported to the health department during the 13-hour period ending at 10 o'clock this morning, indicating that the disease is increasing. The cases reported today are from various sections of the city, while yesterday's report showed that three fourths of the cases recorded were in the Hazelwood district. Pneumonia cases recorded during the same period numbered six.

Seven persons died from pneumonia, five from influenza-pneumonia and one from influenza.
