

"Flu" and Pneumonia Cases Show Decrease

Fewer Deaths Also Reported in City.

A decrease in the number of influenza and pneumonia cases during the 42-hour period ending at 10 o'clock this morning is noted in the report of the department of health. Deaths following the influenza and its communications also showed a decrease.

Seventy-one cases of influenza were reported, making a total of 25,161 cases since the disease became epidemic. Three new pneumonia cases brought the total to 2,538. Twenty-three deaths were reported. Seven persons died from pneumonia and 16 from influenza-pneumonia.
