Dr. Pardee Calls on Citizens to Elect Stephens

Alameda County People Are Asked to Wear Masks and Support Governor

OAKLAND, October 25—Former Governor Dr. George C. Pardee, vice-president of the Republican State Central Committee, mixed public health and political sentiment in the following statement to voters of Alameda county, sent out today by the Alameda county Republican Central Committee:

"The first thing every citizen must think about at this time is to free yourself from the fear that begins right at home, your own home. If you want to be careless of your own life, at least do not go to kill unwarlike citizens by means of a kick against a wearing of a mask. We've got kicks against something. You enjoy good health and are confident of your immunity from disease. Thank God, for His protection, but exhibit an attitude by using the common sense that the same good God has given you.

"After life and health a long way down, next of supreme importance must come the question of our choice of those who direct our public affairs. A few days hence comes the time when we must choose a leader. Here again we face a problem far greater than anything else. Many have proved to be one in heart, sentiment and action with President Wilson. But not necessarily does one prove to be one in heart, sentiment and action with President Wilson. The question is absolutely settled. In his every action and expression Governor Stephens has demonstrated his unwavering loyalty to the President and to his country. In the face of the people of California Governor Stephens is the only one who need appeal to the people of America for support at the coming election. This question is absolutely settled.

"His opponent has a record and an expression which is far different from that of California's 'War Governor.'

"Theodore Bell traveled over this country last summer as President Wilson's Adviser, President Wilson's Adviser, President Wilson's Adviser. He is a man of peace and of action, a man of action and of peace. He has been a member of the Federal Regulation of the liquor laws, and has been a member of the Federal Regulation of the liquor laws, and has been a member of the Federal Regulation of the liquor laws. He is a man of action and of peace. In his remarkable letter to one Sykes, a contributor of Berkeley, and a Democrat, the Independent candidate represents a type altogether different from that of California's 'War Governor.'
