GAUZE MASKS MUST BE WORN ON THE STREET

In a move by the Board of Health, a mandatory order has been issued requiring the wearing of gauze masks in public places. The order is effective immediately and applies to all citizens.

DANGERS POINTED OUT

Dr. Smith, the public health department's chief physician, highlighted the dangers posed by the current state of the pandemic. "The spread of the virus is rapid, and we must take immediate actions to curb its spread," he said.

The order also includes measures such as social distancing and the mandatory use of hand sanitizers. Businesses are urged to provide masks for their employees and customers.

The city has set up several stations where masks can be purchased at reduced prices. The general public is advised to stay informed and follow the guidelines to protect themselves and others.

The health department will closely monitor the situation and adjust the measures as necessary. Compliance with the order is expected as a matter of public health necessity.

Citizens are encouraged to remain vigilant and take proactive measures to prevent the spread of the virus.
