Red Cross Has Influenza Creed
Ambulance Corps Is Kept Busy
Folks Are Winning Over Here

BY ANNE ATCHIN

I believe in the power of prayer. I believe in the power of the Red Cross, and I believe in the power of the people of Los Angeles, who are working together to meet the situation.

In this connection, the Red Cross is doing a splendid work. They have opened a number of centers where people can get help and food. They are also providing medical care for those who need it.

The Red Cross is also working with the local authorities to prevent the spread of the disease. They have set up quarantine areas and are working to ensure that people are kept safe.

The city is doing its part as well. Hundreds of volunteers are working to provide care and support to those in need. They are working day and night to ensure that everyone is taken care of.

In conclusion, I believe that we can overcome this crisis. With the help of the Red Cross and the people of Los Angeles, we will get through this and come out stronger than ever.
