50,000 DOSES REACH S. F. FROM BOSTON

E. E. Moore Keeps Careful Watch Over Vaccine Until It Is Safely Delivered Here

Local officials meet Eastman, who declares the serum is used successfully in Boston.

The 50,000 doses of serum arrived yesterday in the hands of Mayor E. E. Moore, the inventor of the vaccine. The vaccine was developed by Edward E. Moore, who put the vaccine on the market in 1931.

New Red Cross Hospital to Open Tomorrow; Women Workers Are Urgently Needed

Cases becoming fewer daily, due to use of mask, according to health officer Hassler.

Proof that the Spanish influenza vaccine is slowly turning the tide in the epidemic, was the fact that the decline in the number of new cases yesterday was noted with the Board of Health and with other authorities.

Dr. W. C. Hassler, the health officer, added that the number of new cases reported yesterday was only 12, due to the fact that many people were avoiding the mask.

The four-day period of the last Sunday shows the runs true to form, as the figures show.

TO ENFORCE LAW

Masks must be worn for some time yet, was the verdict of the health officer yesterday.

Dr. Hassler reiterated the order to the public that masks must be worn.

An announcement was made yesterday that the Children's Hospital had been closed due to the strain of the epidemic.

No Material Change in Flu in California

SACRAMENTO, October 25.—There has been no material change in the Spanish influenza epidemic in this State, according to the State Board of Health.

Reports received Sunday and today showed the number of cases since the outbreak in the state of 67,350.

Some of the districts in the extreme north of the state showed improved conditions, but this was offset by increased cases reported from the southern part of the state.

Representatives of the board stated that its reports for rendering services to the state have assisted thirty-five places.

Father Collins in charge of the Red Cross Station, called upon the Catholic non-sectarian auxiliaries yesterday for the use of the mask.

Those who are unable to make their machines for the work should apply to 1,100 Franklin street.

W. C. Billings of the United States Public Health Service was called upon to confer with Chief of Police W. H. Dodge, and orders were issued for the use of the mask.

The interior towns show a slight betterment, but others are again up for all.
