Journal of Proceedings Board of Supervisor

City and County of San Francisco

THE RECORDER PRINTING AND PUBLISHING COMPANY
28 Montgomery Street, S. F.

Supervisor Kortick moved as an amendment that Item No. 2 be eliminated.

Supervisor Schmitz moved as a substitute for the whole that Item No. 2 be stricken out and that it be the sense of the Board that the money be used for no other purpose than for work on streets in front of Holly Park.

Privilege of the Floor.

Rev. Father Lyons was granted the privilege of the floor and addressed the Board: "The people going to and coming from St. John's Church and School consider that the streets in that district are in a deplorable condition. I see that you are favorably disposed toward the improvements proposed. The streets out there are only paths made by goats years ago and which have been widened by use since. In summer the dust is terrible—in winter the mud is up to the top of your shoes. The little children sit all day in wet shoes on account of the condition of our streets, and I request that you give them your serious consideration."

Item Eliminated.

Whereupon Item No. 2 was eliminated from foregoing resolution.

Passed for Printing.

Thereupon, the foregoing resolution, amended by the elimination of the second item, was passed for printing by the following vote:

Whereupon, the resolution heretofore presented by Supervisor Mulvihill was also ordered referred to Health Committee.

Information Concerning Influenza.

His Honor the Mayor declared that he had just received the following letter from the president of the Board of Education and asked the Clerk to read it:

October 24, 1918.

Hon. Jas. Rolph, Jr., Mayor, San Francisco.

My Dear Mayor:

This morning at the Red Cross headquarters at No. 30 Montgomery street Mrs. J. D. Casserly handed me the enclosed folder entitled, "Information Concerning Influenza." She stated that she thought one should be placed in every home in San Francisco, but she understood that the Health Department did not have money enough to pay for furnishing and distributing same. I hasten to send the folder to you, thinking that this might be a good way of utilizing a few dollars from the Emergency Fund of the Board of Supervisors. If no other medium of distribution could be had, I suggest that the battalion chief in every district of the Fire Department might have them distributed from house to house in that district by the members of his station, who, no doubt, will gladly volunteer for the service.

Very respectfully yours,

GEO. M. GALLAGHER,
President Board of Education.
(Enclosed—Pamphlet.)

Referred to Finance Committee.

Whereupon the foregoing communication was ordered referred to Finance Committee, with full power in all.

Supervisor McSheehy suggested that the ordinance be also printed in connection with the circular referred to. No ordered.

Street and Sewer Cleaning.

Supervisor Welch raised the question of sprinkling and cleaning of streets. He declared that now, more than any other time, when people were throwing open their windows for sunshine and fresh air, the streets should be well cleaned and sprinkled.

Mayor Rolph replied that the sewer in San Francisco had been cleaned and that the streets were never in better condition. At the health conference yesterday, he said the medical authorities were unanimous that the condition of the sewers had nothing to do with the disease. This talk about cleaning the sewers with salt water was nothing but politics. Drs. Hutchinson and Hall of the Red Cross say something must be done to have politics eliminated.

Dr. Hassler—Dr. Hutchinson, who has traveled all the way from the East, says that San Francisco's streets are the cleanest in the country.

Edw. Rainey, secretary to Mayor, declared that about ten days ago the Chief of the Fire Department suggested cleaning the sewers with salt water, but the Health Department advised that there was no relation between the sewers and the influenza. President Reardon of the Board of Public Works says the sewers were never cleaner. Dr. Woods Hutchinson said: "You might just as well watch the changes of the moon for all the good it will do" and Dr. Ehrlich says, "It will be just so much lost motion that might be applied advantageously in another direction."

Auditorium Offered to Board of Health and Red Cross.

Supervisor Hayden presented Resolution No. 16199 (New Series), as follows:

Resolved, That the Exposition Auditorium be placed at the disposal of the Board of Public Health and the Red Cross for such use as they deem necessary in this emergency, caused by the epidemic of Spanish influenza now raging in our city.

Adopted by the following vote:

Ayes—Supervisor Brandon, Deasy, Gallagher, Hayden, Hilker, Hicks, Kortick, Lahany, McLeran, Mulvihill, McSheehy, Nelson, Schmitz, Sudo, Welch—15.

Absent—Supervisors Hynes, Power, Wolfe—3.

Upon the foregoing committee is ordered referred to Finance Committee, with full power to act. Mayor McSherry suggested that the same be also printed in connection with the circular referred to.

Street and Sewer Cleaning.

Mayor Welch raised the question of sprinkling and cleaning of the streets. He declared that now more than any other time, when people are opening their windows for fresh air, the streets should be well cleaned and sprinkled.

Rolph replied that every day in San Francisco had been better and that the streets were in better condition. At the conference yesterday, he said, the health authorities were unanimous in the condition of the sewers and in doing with the disease. He said about cleaning the sewers that it was nothing but a matter of time. Dr. Hutchinson and Hall of the Red Cross say something must be done to have politics eliminated.

Mayor—Dr. Hutchinson, who traveled all the way from the city that San Francisco's streets are cleanest in the country.

Rainey, secretary to the Board, declared that about ten days ago the Chief of the Fire Department suggested cleaning the sewers with water, but the Health Department advised that there was no connection between the sewers and the disease. President Reardon of the Board of Public Works says the streets were never cleaner. Dr. Woods said: "You might just as well wait for the changes of the moon to do the good it will do," and Dr. Rainey says, "It will be just so long as the motion that might be a disadvantageously in another day."

Sum Offered to Board of Health and Red Cross.

Supervisor Hayden presented Resolution No. 16199 (New Series).

Whereas, That the Exposition Auditorium be placed at the disposal of the Board of Public Health and the Board of Public Works for such use as they deem necessary in this emergency, caused by the epidemic of Spanish influenza raging in our city.

Resolved by the following vote:

—Supervisor Brandon, Deasy, Hayden, Hilmer, Hocks, Lahaney, McLeran, Mulvihill, Nelson, Schmitz, Suhr.

—Supervisors Hynes, Power.

—3.

Commendation of Health Authorities.

His Honor the Mayor heartily commended the health authorities, Drs. Hassler and Broderick, for their splendid work in combating the spread of the disease.

Minority Report of Public Health Committee Recommending the Re-enactment of the Mask Ordinance.

The following report was presented and read by the Clerk:

San Francisco, Cal.,
December 19, 1918.

To the Honorable Board of Supervisors.

Gentlemen:

The undersigned members of the Public Health Committee disagree with the findings of the majority of the committee in recommending indefinite postponement of the so-called Masking Ordinance, and respectfully recommend to your honorable body that the ordinance as submitted be enacted.

Respectfully submitted,

JOS. E. LAHANEY,

JAS. E. MCSHEEHY,

Members Health Committee.

Report of Public Health Committee Against Re-enactment of Mask Ordinance.

Whereupon, the following report was presented and read by the Clerk:

San Francisco, Cal.,

December 19, 1918.

To the Honorable Board of Supervisors.

Your Health Committee met this afternoon and heard arguments in

favor and against the proposed ordinance providing for the wearing of masks during the prevalence of the so-called Spanish influenza epidemic.

After consideration of the arguments presented, your committee felt that in the matter of wearing masks some action should be taken by the State Board of Health to make it a State rather than a municipal decree if mask-wearing is necessary.

Your committee also felt that the situation at this time hardly warranted the enforced donning of masks by the people of San Francisco; and also felt certain that, should later developments make the wearing of masks desirable, the good judgment of the people would dictate the proper course to pursue as to the wearing of them.

Under the circumstances your committee respectfully recommends that action on the proposed ordinance be indefinitely postponed.

Respectfully submitted,

JAMES E. POWER,

E. E. SCHMITZ,

J. E. HAYDEN,

Public Health Committee.
