

SLIGHT INCREASE IN INFLUENZA CASES HERE

There was another little spurt in the number of influenza cases yesterday when 107 persons were reported to have been taken ill over the two-day period. Two hundred and three cases were reported off. Over Saturday and Sunday last week 397 cases were reported. The total number of persons reported ill with the disease since October 6 is 3632.

On account of the large number of patients discharged and the decrease in the number of new cases the calls for relief to the Community Kitchen, operated by the Rotary Club in the Odd Fellows' Building, materially decreased yesterday, compared with 104 on last Monday.

A number of new children were admitted to the Kiwanis Home, Fourth and Walnut streets. Over Sunday members of the club entertained the youngsters by taking them on auto rides.
