

CAMP CRANE VS. DICKINSON ON MUHLENBERG FIELD

A very good game of football is anticipated at Muhlenberg Field this afternoon at 3 o'clock when the Camp Crane team will meet the team of Dickinson College S. A. T. C.

Dickinson defeated Susquehanna University by a score of 12-0 while Camp Crane has a 16-0 victory over the same team, so it would appear that the two teams that meet today are well matched.

Camp Crane will have in its lineup Dale, former half back on the University of Michigan team, who is at left end; Ackernecht, former Cornell lineman, who is at left guard; Hollinger of Occidental College, Los Angeles, who is at left guard; Cudney, of Michigan, or Hagley, of Wisconsin, at center.

On the right side of the line Portery is at guard; Garrett, formerly of Purdue, at tackle, and Brewer, of Reading, is at end.

In the backfield Devorak, of the University of Minnesota, is at quarter and Werden, of the same institution is at left half. Szurkoski, of Fordham, is at right and Schnell is a powerful line bucking fullback.

The admission to the game is fifty cents

NO MORE FLIMMERS ON ARMISTICE NEWS

In the event of an armistice with Germany, the people will be notified by two taps of the fire alarm which will be struck at intervals of two taps. This is the arrangement made by J. Herbert Kohler, the city commissioner and in charge of the fire department. This means of notification can be readily understood by everybody.

Special prices on watch repairing for army men. Perkin, 128 N. 6th.

PALMERTON IN THROES OF INFLUENZA PLAGUE

The Palmerton Board of Health are going after the spread of the influenza epidemic with vigor. They intend to wipe it out and are using every means at their command to do so. Those knee deep in the work of doing this are Burgess Clifford L. Snyder, President of the Board; H. N. Blunt, Acting Secretary; F. A. Seip, Health Officer, William Lewis and Chief Peter Dougherty.

On last Friday, Saturday, Sunday and Monday, twenty deaths occurred in the zinc town, all Mexicans. The Board is insisting that bodies be buried as rapidly as possible.

They are also warning and educating the public with poster talks and instructions. One of the notices announce that Palmerton up to the latest record has 252 cases in the hospital and in 116 houses. All the latter are under quarantine. In these houses there is a population of 768 persons, practically one-tenth of the population of Palmerton. Since October 4th, more than fifty-two persons have died.

In view of these conditions the Board announced that all quarantine restrictions imposed by Dr. Royer, at Harrisburg, are still in full force.

Influenza on the Decline.

The health conditions in this city as far as influenza cases are concerned will from present reports soon be in a normal state. Up to yesterday noon 13 new cases were reported and 85 old cases reported off. That there has been a steady decrease of new cases is evidenced by the following statistics: Monday, new 107, reported off 203; Tuesday, new 77; reported off 133; Wednesday, new 78, reported off 136; Thursday, new 41, reported off none.
