

UNITED STATES FUEL ADMINISTRATION
WASHINGTON, D. C.

RECEIVED

IN YOUR REPLY REFER TO

October 23, 1918

2A

The Honorable
The Secretary of War
Washington, D. C.

Dear Mr. Secretary:

In acknowledging your letter
of the 19th regarding doctors for the mining
communities and especially in the region of
Allentown, Pennsylvania, I wish to add to my
thanks a renewal of the suggestion regarding
fourth year medical students. The epidemic
of Influenza is very serious yet. The coal
production was lower last week than at any time
since early June, and I feel that any medical
assistance that you can give the mining districts
will give direct result in production of coal.
