

Craftsbury, Vt., September 25th., 1916.

C.H. Dalton, M.D.,
Wurlington, Vt..

Dear Doctor:--

Far be it from me to attempt to instruct or advise our present Board of Health, for I believe them to be most decided ly on the job and further I believe, every man to his job. Do you not think some general action ought to be taken by the Board with reference to this epidemic. If it is contagious what about permitting all these conventions and meetings. Of course if you stop the meetings it would be hard on the Liberty Loan cam- paign, but I think if the Boards of Health of New England joined in a request, the campaign could be deferred here. I merely write you this and all I know about the matter is what I have seen in the papers.

Your's very truly,

P.S. I presume a good deal of this trouble comes from the fuel shortage. People are trying to get along with less heat.
