

# INFLUENZA SITUATION

## GROWING BETTER ALL

## THE TIME SAYS KNOTT

ONLY SIX NEW CASES IN THE CITY SINCE SATURDAY AFTER NOON; MANY RECOVERIES ARE REPORTED.

"The influenza situation is growing better steadily." This is the statement issued by Dr. Irahan Knott, city health officer Monday morning, and given to The Press.

His statement is borne out by the official records. The records show ten new cases reported Saturday afternoon and Sunday and four of these are from outside of the city leaving six new cases in the city. They are as follows:

Allred Freezer, three miles south of city.

Mrs. Jess Ennis and daughter Jesse, 638 Main street city.

Mildred Holmes, Bert Wooten and Susie Wooten three miles south of city.

Gordon Weese, Colorado avenue.

Mrs. Kimball at St. Lukes hospital.

Frank Millett, 10 North Fourth St.

Edith Gibbons, No. 4 Grand avenue.

There are many recoveries reported each day. The situation seems to be clearing up nicely and there probably will be no occasion for again applying the quarantine.
