

INFLUENZA DECIDEDLY ON DECREASE, QUARANTINE EFFECT IS BEING SEEN

The influenza reports for the last few days shows a noticeable decline in cases, but with a rather serious condition existing in the suburban sections. Very few new cases are reported in the city. The total cases reported in the city and environs up to Thursday night totaled 872. In the city proper there have been 759 cases and the record shows 65 deaths have occurred in the city and suburbs from October 1st from influenza and pneumonia.

The new cases follow:

Lillian Lacefield, west of city.
Milton Thompson, east of city.
T. W. Giddens and five children, southeast of city.
Mrs. Etta Hardman, southeast of city.
Elmer Dilley, southeast of city.
Baby Meyers, near Lujane.
Three children of J. E. Dellegos, South Ninth.
Elsie Wright, 602 N. Cascade.
Clara Wright, 602 N. Cascade.
Blanche Wright, 602 N. Cascade.
