Mr. W. F. Benedict,
Asst. Secty. to the Mayor,
San Francisco, Cal.

Dear Sir:-

I am returning herewith communication addressed to Mayor Rolph by the American Public Health Association, together with the article by Evans and Heckard relative to the Influenza epidemic.

I believe this article should be placed on file in your office for ready reference as one of the chief matters to consider when taking up the next budget in regard to the amount placed in the urgent necessity fund on account of what has proved in other cities a need to care for the recurring influenza epidemics.

Being a member of the American Medical Association I have already received a notification of the meeting, but owing to lack of fund will not be able to attend and represent my department at said meeting.

Respectfully,

Wm C. Stansler,
Health Officer.
