

# *Fremont Remount Escapes Epidemic*

Sergeant Frank X. Gowans, U. S. A., says that auxilliary remount depot No. 382, Camp Fremont, equals the record of the San Francisco naval training station on Yerba Buena in not having had a single case of influenza. The remount depot has a strength of 540 men, and Sergeant Gowans says its health record reflects the efficient sanitary precautions taken by Lieutenant I. J. Stoner, medical officer, and the spirit of co-operation of the men of the command in adhering to the quarantine regulations.
